

We invite applications for the position of

PROGRAMMER

The incumbent will manage the software and applications portfolio to ensure the efficacy of the company's technological operations by translating business needs into technical solutions.

Core Responsibilities

- Design, develop, analyze and implement enterprise applications in a mixed Windows and IBM AS400 environment
- Prepare workflow charts and diagrams using programming language capabilities, subject matter and logic
- Maintain technical documentation
- Monitor the operation of assigned programs and respond to problems by diagnosing and correcting errors in logic and coding

Requirements

- Bachelor's Degree in Computer Science or equivalent qualification from a recognised institution
- Minimum five (5) years' advanced experience with application development and integration with Windows and IBM AS400 systems
- Proficient in RPG/WebSphere, Java, Python and .net programming languages
- Expert knowledge of programming languages and security best practices
- Strong analytical and communication skills
- Ability to work in a fast-paced environment with multiple priorities

Email resumes to careers@wisynco.com with **PROGAMMER** in the subject line.

Please note that only those candidates who meet the required criteria will be contacted.
